

STAR GALETTE STENCIL

1. Use the red outline as a rough guide to cut as large of a pentagon as you can fit within your dough. Transfer dough to baking sheet.
2. As shown with the blue dashed lines, cut a 1-inch notch in the center of each side, angling toward the center.
3. Fill center area with fruit and fold each point into the center across the green dashed lines. Pinch outside corners closed, to seal in fruit and shape.
